

## Job Title: **CNC Machine Operator**

### **Welcome to Mirmil Products!**

**What We're Looking For:** The **CNC Machine Operator** is accountable for the safe and efficient operation of a variety of machines used in the manufacturing of custom architectural millwork pieces. Assigned work will be completed according to work directives, client specifications, and company quality standards.

### **Responsibilities of the Role:**

- Create, monitor and maintain a well kept, organized and safe work environment while promoting, complying with and enforcing adherence to health and safety rules, regulations, procedures and policies
- Set up, program (as required), operate and maintain various machines using proper techniques including beam saw, CNC, veneer stitcher, V-groover, press, glue spreader, panel cleaner, straight-line rip saw, jointer saw, edge bander, panel saw, planer, molder and/or other equipment as trained
- Set up, operate and maintain grinding knives, moulder and shapers
- Inspect and ensure machines and equipment are running optimally including cleanliness, oil levels, glue levels, temperatures, grease points, and lock points
- Read and precisely follow architectural drawings, specifications and work orders
- Assess each job to make the most efficient use of resources (time, materials, equipment, manpower)

### **What You Offer:**

- Previous machine operating experience is required, with previous wood machine operating experience being preferred
- Ability to read blueprints and drawings comfortably
- Previous hand tool experience
- Strong safety mindset with attention to detail
- Proficient hand-eye coordination
- Excellent time-management and multi-tasking skills
- Effective written and oral communication skills to interact with, instruct and inform others
- Knowledge of various working materials including various wood species, wood grades, laminates, plywood, and particle boards
- Proactive approach with demonstrated initiative and ability to be flexible
- Ability to take direction, focus and work with minimal supervision while working both as a team and individually

**Key Requirements** (education/certifications/licences/passport/clean drivers abstract):

- Ability to accurately read and interpret plans, drawings, and specifications
- Demonstrated safe use of hand and power tools
- Familiarity with computerized equipment
- Hands-on experience in a millwork, woodworking, or carpentry environment would be an asset
- Demonstrate knowledge of various working materials including various wood species, wood grades, laminates, plywood, and particle boards

]

**Wage / Schedule:**

- From \$17.20 - \$28.33 / hour
- Monday – Friday, 7:30am – 4:30pm with overtime

**We look forward to meeting you!**
